Continuous updates of DVR and desktop software features provided ensure your system is ready for years of reliable service.

With PRO-VISION systems, you no longer have to perform time-consuming manual system operation audits. This saves time while ensuring you won’t be without video when an important incident occurs on a bus.

No other company in the industry provides a more inclusive, longer-lasting warranty. Our 5-YEAR Full-System Warranty and LIFETIME Cable and SDXC Card Warranty cover you no matter who installed it.

PRO-VISION systems are simple by design, but few companies have the time and resources to install the equipment themselves. PRO-VISION is the only mobile video system manufacturer to offer true factory installers to complete your on-site installation.

No other company in the industry provides a more inclusive, longer-lasting warranty. Our 5-YEAR Full-System Warranty and LIFETIME Cable and SDXC Card Warranty cover you no matter who installed it.

No longer do you have to perform time-consuming manual system operation audits. This saves time while ensuring you won’t be without video when an important incident occurs on a bus.

With continuous updates of DVR and desktop software features provided, the PRO-VISION HD System is built to adapt to the latest advances in technology, ensuring your system is ready for years of reliable service.

SecuraMax™ saves you time by automating your long-term video storage and allowing you to share video files securely in seconds. It also provides an audit trail of who watched what videos and allows access to them on any device.

The included PV Player™ Playback Software provides a tool for you to zoom in on any area of recorded video, allowing you to fully utilize the additional detail captured by 1080p HD cameras.

Get the full story of what’s happening in and around your buses with 1080p HD video on all cameras.

The PRO-VISION HD Dual-Lens Stop-Arm Camera uses Artificial Intelligence to automatically detect and capture video of illegally-passing vehicles, even at speeds up to 70 MPH, and integrates with the on-board solid-state DVR.

From the driver seat to the back seats, no detail will be missed with the widest vertical and horizontal field-of-view, 1080p HD resolution and night vision recording.
