

Leading the Way in Mobile Video Solutions for Law Enforcement

Protect Your Officers. Protect Your Community.

Record, manage and store what is happening in and around your vehicles and personnel with mobile video solutions from Pro-Vision. With body-worn cameras, in-car camera systems and video evidence management solutions, you can protect your officers and tell the whole story.

In-Car Video System

Single-, two-, or five-camera recording systems designed for law enforcement vehicles.

Complete 360° Vehicle Coverage

From door-to-door interior rear-seat coverage to 360° exterior coverage, Pro-Vision captures a 1080p HD picture of all activity in and around the vehicles.

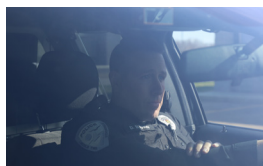

Clearer Low-Light Capture

Ensure low-light conditions don't leave you without clear evidence with Wide Dynamic Range technology.

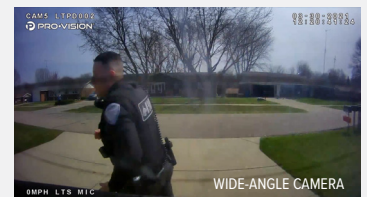

5-Year System Warranty

From a solid-state DVR design free of moving parts to durable, waterproof exterior cameras, the Pro-Vision In-Car Video System has the durability to handle harsh environments and is backed by a 5-year system warranty.

Unobstructed Windshield View

Utilizing the latest technology, the Pro-Vision windshield-mounted, forward-looking camera has a compact form factor and is hidden behind the rearview mirror to avoid obstructing the driver's view.

Bodycam® 4 – Body-Worn Camera

The next generation, dependable, integrated body-worn camera built to protect those that serve.

Focus on the Situation with Automatic Activation

Body cameras automatically activate when the vehicle lightbar is activated or by proximity within 30 feet of another activated Bodycam 4 unit, meaning your officers can keep their attention on the task at hand.

Simplify Camera Assignment with RFID

Bodycam 4 cameras are easily assigned to officers with a simple scan. Just pick a camera, scan and you're ready to begin. Plus, there's no need to designate a certain camera for each officer, as the RFID Login allows any officer to swap cameras from shift to shift.

Long-Lasting Reliability

Featuring a rugged design, an IP68 waterproof rating and a replaceable, full-shift battery that lasts for 14 hours, the Bodycam 4 is built to last.

SecuraMax™ Video Evidence Management

A turn-key cloud evidence management solution designed for Law Enforcement.

- CJIS-Compliant
- Microsoft® Azure Partnership
- Automatic Facial Redaction
